

## *The Devon and Cornwall Aid for Girls Trust*

Grants in aid are limited to GIRLS whose normal place of residence is within the Counties of Devon and Cornwall. This Trust, set up in the 1840's, was to help orphaned girls, and whilst this provision still exists, it is also charged to help **any other girls in need.**

Grants are made towards the cost of care, maintenance or other needs; particularly in the case of those entering University, College of Further Educational (or training apprenticeship) for the provision of tools, books, computers, special fees, travelling expenses, or other items as may help them advance in their chosen work.

Normally no awards are made for post-graduate, second or higher qualifications, home or part-time studies or to mature students (normal age range of student who apply for the award is 16 to 23 years). All awards are made at the discretion of the Trustees.

All communication and request for application forms should be addressed to:
